**Importance:** High

Hi Tiffany: I have not heard from Britta since sending this out last week. Would you like me to reach out to her again? As I mentioned last week, the conditions in this draft permit are relatively consistent with other deep injection well permits that we issue. Sarah and I were able to complete much of our review of the draft permit and SOB on Friday so I have re-familiarized myself with the specific details.

I would be happy to meet with Britta to give her an overview of the project and the major provisions of the permit.

Thanks!

Douglas

**Importance:** High

Hi Britta: I talked with Tiffany on Monday to request timely enforcement review of these draft Class V permit documents. She said that you would likely be doing the review (please let me know if my understanding is incorrect).

Sarah has asked that these be reviewed by next Tuesday, COB (August 6<sup>th</sup>) to align with Darcy's schedule for review and to ensure we can still meet the RA's deadline for permit issuance by August 26<sup>th</sup>. Since Sarah and I will also be reviewing these documents concurrently, I have attached SharePoint versions we can all work from. The focus of our review should be the draft permit and SOB, but Chuck (who is on vacation) included Powertech's comments as a reference document.

As you work through these documents, please ensure that track changes is "on" to capture your revisions, etc.

Please let me know if you have any questions, etc. and thanks for your support!

Douglas

Thanks Chuck: can you confirm that this is the version you would like Sarah, Britta (for ECAD), and myself to review and comment on by the end of next week?

Douglas

Hi Douglas:

# Ex. 5 AC/DP

If you need access to these docs for some other reason, I put copies on the I-drive, Managed Share, under my name.
